**KENNEDY PERSONAL PROTECTION Automatic Welding Helmets**

Automatically protects the operator from eye injuries caused by arc, leaving both hands free. Equipped with 2 sets of photosensors to sense arc light. Solar power relieves the need for batteries. Offers permanent UV/IR protection up to DIN 15 whilst in use. Welding shade can be easily selected by way of a side mounted adjustment dial.

Automatically detects weld arc and switches from shade 4 to pre-selected shade (9, 10, 11, 12 or 13). Time to dark: 0.5ms.

The shells are certified to **BS EN 175: 1997** for eye and face protection. They can withstand a temperature of 650 C from the end of the electrode for five seconds, without burning. The electronic lenses are certified to **DIN EN 169** and **DIN 179**. Switching time from light to dark: 0.5 milli-seconds. Solar powered, no battery required. Suitable for Arc, Mig/Mag, Tig and Plasma welding. **With 2 year warranty.**
